## Armed Guards Take Posts As Italian Vote Draws Near

By Philip Clarke

ROME, April 17.—(AP)—Armed, steel-helmeted guards took up a round-the-clock vigil last night to keep the peace through the Italian parliamentary election which begins Sunday morning.

Italy has had a 32-hour cooling off period since last Friday, when the polls, which open at 8 a.m. Sunday, the voting will continue until 2 p.m. Monday. It is estimated that 25,000,000 Italians will participate—the greatest turnout of voters in the country's history.

Italy and the world probably will have to wait until Wednesday for decisive returns in the election on the chamber of deputies. Senate returns are not expected to come until the following day.

Until the election the Italian government has been forced to call in all its forces to keep order in what it fears may be a civil war in which both sides will fight to the death.

Italy has been unable to elect a government to take over from the present coalition of Communists and Socialists.

As the months of tempestuous campaigning draw to a close the 300,000-man force goes into action to prevent possible trouble spots such as Milan's turbulent pizza districts and Rome's crowded piazzas.

Police swept wide areas near Rome and the capital's suburbs in a continuation of their systematic search for hidden arms and ammunition. About 10,000 men remain in the western community districts or gravitate toward the Communist strongholds.

**IMPENDING VOTE**

The election, the most important in Europe since the beginning of the cold war between the east and the west, is being fought out on the basis of the Italian people's right to decide whether Italy will remain in the western community districts or gravitate toward the Communist side.

### Communist School Raided by Police

MONTREAL, April 17.—(CP)—Police today attacked Communists and others who gathered in a hall Friday night on what they termed a well-organized Communist school for children of Ukrainian descent who were taught about life in Russia.

Police said the school was sponsored by the Canadian branch of the Canadian Association. Later they raided a hall operated by the same organization.

In each hall, police said they seized stacks of Communist literature and propaganda which had come direct from Moscow.

Sgt. Paul Benoit of the provincial police said that the school, on downtown Richmond street, had been going for several years although it had never received its existence permit.

Benoit said about 25 children attended the classes two evenings a week.

He stated that when police entered the school they found about 15 children, aged between 10 and 15, who were reciting their regular lessons. A number of other pupils arrived later and were turned away by police,

### Huge Snowslides Delaying Trains

Two huge snowdrifts on Mount Robson near Red Pass junction in the Rocky Mountains have delayed Canadian National Railways eastbound trains by more than 12 hours.

Trains were delayed about 2 p.m. Friday and a second one was reported at 8 p.m.

First slide was cleared to allow the first section of the train to pass through, but after it was cleared by a rotary plow, another slide covered the track. The second section of the train was delayed at 9:30 Friday and it is not expected in the city until 3:30 Saturday morning.

## Possibilities Of Vote Not Talked

Manning Says Government Has No Election Plans

Possibility of an early election was not mentioned today when cabinet ministers and Premier Manning emphatically denied having even discussed the matter.

Mr. Manning intimated there was no reason to go to the polls if the province had nothing to offer.

Cabinet ministers were questioned on the prediction voiced last week that the provincial election would be held on August 10.

"You may say the government is delighted to hear the date has been set," commented Hon. Luke Macnamara, Minister of Internal Affairs.

"I haven't any comment. I deny the story on the date, they'll only have another date," Premier Manning said.

One cabinet member admitted responsibility of an Aug. 10 election, but added there was much to be done before the government could go to the polls.

The date is the maximum and there would be a vote this year, the premier's announcement came as a surprise to many.

At the moment, there is no issue on which to appeal to the people," he pointed out.

It was reported the government had no plans to bring in legislation to put off the date unless by a resolution of a Canadian Grains Board if found necessary.

One member of the investigation into child welfare conditions in Alberta, being carried on by a Royal Commission, would be a factor in the government's decision, it was thought.

R. D. McLean, Social Credit, argued he would prefer an election this summer, but said there was no indication of a date.

# Prince Charles Sees "Democracy"

Prince of Belgium Runs Into Ottawa Protests

By Kay Roy

OTTAWA, April 17.—(CP)—Prince Charles of Belgium had a close-up look Friday at a full-dress protest against the Canadian cost of living.

## LITTLE OF THIS GOES LONG WAY

CHICAGO, April 17.—(AP)—Northern Alberta's most powerful group of citizens, the Canadian Council of Alberta, has found a political protest more effective than a petition or a protest resolution and controls.

As RCMP officers held the crowd in check, the 45-year-old regent stepped briskly from his car to meet Canadian dignitaries. Seconds later he was inside the Canadian Parliament, apparently unaware of the scope of the demonstration to had glimpse.

The group of 150 leading citizens had earlier this week by Finance Minister Abbott as committee—had the time of their lives. They were singing, they sang "Open the door, Abbott"—and they finally won permission to enter the various galleries of the committee.

### THEIR NEXT MOVE?

"Their next move? That was anybody's guess. They were meeting in high school auditoriums and that decision.

They all stood early this week when consumers—mostly housewives—gathered in Ottawa for a show of strength. They came from across the country to demonstrate that they wanted one in common—they wanted prices rolled back, price increases reimposed, subsidies re-surected.

They asked for a moratorium on price increases, a cabinet committee. Their leaders sought an interview with Finance Minister Abbott. He gave them the same answer he gave the marchers: "There is no march on parliament."

J. C. Coldwell, CIO leader, brought the demonstrators to Ottawa Wednesday. He wanted to know whether the government had refused to grant a group an interview.

### ABORTIVE MEETING

Mr. Abbott, speaking straight from the shoulder, said it had.

Experts had conducted an early Consumers' Council to clean up the ground with a scrapper to prevent cattle from grazing.

The cattle were endangered by a lack of feed resulting from widespread crop failure in the area last year. Some 150,000 head of cattle were doing well on their last reserves but Fred Makyniukach, a Glaslyn dairy farmer, was forced to leave the farm with his cattle because there was no pasture left.

Most farmers still had a few days' supply of feed on hand and were doing well on their last reserves but Fred Makyniukach, a Glaslyn dairy farmer, was forced to leave the farm with his cattle because there was no pasture left.

Some 150,000 head of cattle were doing well on their last reserves but Fred Makyniukach, a Glaslyn dairy farmer, was forced to leave the farm with his cattle because there was no pasture left.

Those were the main developments until today.

Shortly before Prince Charles was scheduled to arrive at the parliament buildings as part of his Canadian tour, the marchers neared the hill.

They were in twos and threes carrying banners which express their goal: "The Farmer Is Our Friend—Trust Our Farmers—Liberate Our Farmers—Restore the Profitters."

### HEAD OF PARADE

At the head of the parade was a large black dog, a Doberman Pinscher, drawn in a cart laden with big bundles. They were described by marchers as petitions bearing the names of 100,000 people who want price controls and subsidies re-started.

### Fist-Swinging Attacks at Meet

CALGARY, April 17.—(CP)—A fist-fighting match preceded a fiery fist-fighting episode at a meeting of the Calgary Trade and Labour Council.

Tempers of Ald. D. F. McIntosh and Clarence McDougall flared and exchanged a few sharp blows, but were separated and restrained immediately by other councilors.

The dispute arose during discussion of the new Alberta Labor Act. Ald. McIntosh, asked the question later, to discuss if immigrants should refer to it as the legislative committee, all were defeated and the matter dropped.

# Procedure in House Attacked by Members

OTTAWA, April 17.—(CP)—A Progressive Conservative and a Co-operative group got up in the Commons Friday to attack parliamentary procedure.

Claire Gillis (CCF-Cape Breton-South) and T. L. Church (PC-Toronto Broadview) joined forces in protest against procedure, and in this legislation in the senate. They claimed the bills slipped through with little discussion.

The bill was launched by Mr. Church on a private bill to set up the National Insurance Company.

Declaring he objected to the procedure on these bills, Mr. Church said it was becoming "a farce and a travesty."

### LITTLE DISCUSSION

"The bill," he said, "is introduced and read a second time in the senate without any amendment. There is no discussion. Once in a while, the bill is sent to committee, where the whole discussion occupies only a few minutes, and then the bill is sent over here . . ."

"Talk about reform of the senate! They are here today and away tomorrow. They are on vacation."

(The debate has been in recess since March 27.)

Mr. Church also objected to the bill itself, deciding instead to introduce a bill of his own.

It is expected that about 500 senators will be in session in southern Alberta and about 300 from the United States in the historic dedication of the new highway-surface highway between Lethbridge and Great Falls, Mont., which were in attendance at the meeting.

### Sask. Minister Denies Rail Need

VANCOUVER, April 17.—(CP)—British Columbia government tax concessions to race track operators may permit the opening of the Lansdowne Park track on July 1.

The BC Turf Association, which had announced cancellation of the race meet when it failed to get reductions, in tax to meet increased costs of operation.

A bill introduced in the legislature Tuesday night may pave the way for the opening of Lansdowne Park.

The company's financial position improved by more than \$6,500,000 due to the sale of its racing track, transferred for broadcast over Saskatchewan radio.

The bill, introduced May 1, 1947, decreased the railway's debt held from \$22,000,000 to \$75,000,000, and its annual fixed charges dropped from \$1,500,000 to \$1,000,000 in 1947, the lowest of any year since 1928.

The recent increase meant "it will cost three cents more per dozen to transport eggs, 29 cents more for a ton of coal, 28 cents more for a new tractor and 30 more for a new car and 21 cents per hundred bushels to move feed grain," Mr. McIntosh said.

"We now have fastened down a substantial amount of charges," he said. "It affects almost everything we have in Saskatchewan buy and sell, according to the reports of Western Canada and the Maritime labor," he said.

## MARKET CONTINUES UPSWING

### Prospect Of Expansion Spurs Aircraft Stocks

By The Canadian Press

Stock markets resumed their climb Thursday, casting aside for the moment at least any idea that they were in for a period of consolidation of recent gains.

In New York the Associated Press 60-stock composite was up 4½ points to 1,360 yesterday, March 31 and a top since Oct. 27. Transfers were 1,650,000 shares among 1,300 issues. Some public stocks also little better, but gains of one to two points were widespread.

Activity came into activity on word that the House of Representatives had passed 303-3 and

sent to the Senate a bill which would provide \$3,198,000,000 to start expansion of United States aircraft production. Buying in general was strong, but there was a big government spending. Some customers, however, were inclined to buy more than they could afford. The Italian election and more light on labor situations.

Markets will continue to lead the market and on the index industrial stocks were up 1½ points to the point gain since March 16 and the highest level since Jan. 14, 1947. The Dow Jones average was up some 14 points since March 16 and at their best in more than a

year—since Feb. 12, 1947.

Western oils recovered their advance, adding 113 to 3940, just above Monday's nine-year record. Only 10 stocks had closed up 23½ to 27½ points in nearly five years, since July 22, 1943.

The industrial stocks, led by papers, went into higher ground with gains of front rank to which a maximum of two points was added.

Grains made good advances in Chicago and Winnipeg. In Chicago, wheat was up 10 cents to the

## Helping Discharged Convicts

The branch of the John Howard Society which is to be formed in Edmonton shortly to aid prisoners discharged or paroled from penal institutions in this part of the country will be successful only as the whole community stands behind its efforts.

In other words, no organization can complete the work of social rehabilitation commenced in Canadian penitentiaries unless employers of labor and, in fact, all society, is willing to give the discharged or paroled convict a decent chance.

There is no penitentiary in Alberta. But discharges from all seven Canadian penitentiaries move into Alberta. The problem here is exactly the same as though this city were at a penitentiary's gates.

Around 1,000 persons are released from Canadian penitentiaries and gaols every year upon completion of their sentences. Another 1,000 are released on parole.

Around 1,000 persons are released from Canadian penitentiaries and gaols every year upon completion of their sentences. Another 1,000 are released on parole.

That is to say, there is poured into Canadian society every year some 2,000 persons who can either become useful citizens or menaces to life and property. What they actually do become depends very largely upon the opportunities given them.

A prisoner is released from a Canadian penitentiary with new clothing, a ticket to his home and not less than \$10 in cash.

With that equipment he faces a world that is frequently hostile and suspicious. If he is given a chance, such as the John Howard Society tries to give him, he will complete his rehabilitation in perhaps 60 cases out of 100.

If he is not given a helping hand, he takes the easiest course and seeks out his old companions in crime.

The John Howard Society is a great humanitarian institution engaged in salvaging the economic and social potentialities in human beings. It should have the full support of this community.

## Italy at the Crossroads

The Italian people go to the polls tomorrow in an election which is virtually a choice between the democratic and communistic forms of government.

A democratic victory will be a serious setback to the Soviet Union in its open attempt to dominate Europe. A communist victory will bring Italy to an alien political conception from which it is unlikely the Italian people could ever be delivered except by force of arms.

Political prophecy is thankless and dangerous. Nevertheless it is difficult to see how a clear-cut triumph for Communism could be achieved in Italy unless the voting is blatantly dishonest or unless the Italian people have undergone a radical change of heart in less than a year.

During May and June of 1947, the United Press made a careful and exhaustive survey of the incidence of communistic membership throughout Europe.

This news service found that outside Russia the largest communistic membership was in Germany which had 2,221,215 persons affiliated with the party. It was found that France had 2,000,000 Com-

munist, Italy 2,000,000, Czechoslovakia 1,700,000, Yugoslavia 1,700,000, Bulgaria 850,000, Hungary 650,000, Poland 600,000, Romania 500,000, Austria 175,000, Sweden 156,000, Belgium 100,000, Greece 75,000, The Netherlands 60,000, Great Britain 43,000, Denmark 40,000, Finland 40,000, Norway 34,000, Switzerland 25,000, Iceland 1,000 and Spain 400.

In 1947 formed a nice nucleus for any political party. But Italy has 45,646,000 people and a voter's list of not less than 29,000,000. Unless the converts to Communism have doubled in a year, that party cannot hope to dominate the situation.

There are further factors that should enter into the election decision. The recent implementation of the Marshall Plan should relieve Italians of some of their economic desperation.

Russia's rejection of the western proposal to return Trieste to Italy has also been resented by Italians.

Anything can happen, of course. But the normal indications point to a repudiation of Communism in tomorrow's voting.

## OUR TOWN

### Achieves Success Single-Mindedness

My beat-up old officeboy is so dedicated to his work that I am not surprised. Once word, however, has changed not a whit. The smallest particle in all that he does is the "secret," and the definition is: "The prosperous termination of any enterprise."

I have been, and still am, fascinated by the subject of success and the drive to success. Consequently, when I found myself mingling in Edmonton last week with the rare birds, the Large-billed Canadian Success, I was willing to stay after school and further my education.

The Free Enterprise system is a great thing of the equality of opportunity under this system. In America every boy may become President of the United States. In Canada, every boy may become president of the City Council.

You have no idea how ridiculous this premise really is until you've rubbed shoulders with a Canadian success. He's a real drink with a real, live, talking, fire-breathing Canadian who has reached the top of the ladder of success of any enterprise. If ever I was prepared to abandon the vaporous idea of becoming a crowning achievement, this precarious peak was it after studying those men at close range.

That is one of those overpowering and deceiving simplicities. The way to success is to place yourself in the path of power. It is as easy as that. I wanted to make money, a lot of money, and I did. I did it in a rare moment of relaxation.

"All this was there to it." I wanted to be successful, and me the same. What was left unspoken was that this singleness of purpose, this single-mindedness, energy few of us have, a born precocious talent and an iron will to stay on that narrow path.

Yours truly, A. AHLSTROM,  
Secretary, Jasper Place

## Ladies Grow Out of Mud

Editor, Bulletin—Ladies grow out of the mud and we are not deceived.

When, however, we read the paid ads in magazines and hear news items about the unctuous platioties of brewers and distillers, posing as champions of such women, we know that is only entitled to the adjective "Russian," because it has headquarters in Moscow.

The people of Russia and all other people have everything to lose and nothing to gain from war, but the people of America, by being born in this country, are entitled to the only prize that such an obsession is dictatorship for themselves.

The people of Russia and all other people have everything to lose and nothing to gain from war, but the people of America, by being born in this country, are entitled to the only prize that such an obsession is dictatorship for themselves.

Democrats can only lose by supporting Communism, and we know the greater their losses.

The people of Britain were bankrupt by the war, and the people of America, by combat it by practicing a little democracy at home—starting with the ballot box.

Russia's victory in Moscow is due to the fact that Hitler failed to conquer.

It is the responsibility of all peace-loving people in all countries, including Russia, and the other Communists conquered and controlled by the International, the Communist International, which is believed to have a world wide influence, to stop Hitler for men, to a certain degree—not for the extent to which I have mentioned—but for the family's clothes and food.

Can this be accomplished without the help of others? We hope so. It all depends on what one man in Moscow and his friends decide.

## Cancer Sufferers Given New Hope

Atomic Energy to Be Used In Big New York Clinic

By Howard W. Blakeslee

NEW YORK, April 17.—(AP)—The world's greatest cancer centre opened here yesterday with the promise of atomic energy that may help save lives. The discovery also looks good for man.

Opening today is the Sloan-Kettering Institute for cancer research, a \$4,500,000, fourteen-story research building with nearly twice as much space as the present one. It is closely linked by corridors with Memorial Hospital, the first cancer hospital in the world, and with the Strang Prevention and Detection Clinic, also a new center to be opened by the New York City's new cancer institute, the James Ewing Hospital soon to go up the other side of the same street.

The research building was built

## MUSIC Major and Minor Notes

By H. D. S.

Final concert for the season will be given by Edmonton Philharmonic Orchestra in Strand Theatre Sunday evening at 9 o'clock. Orchestra is conducted by Abe Fratkin. Soloist will be Sylvia Quattrochi, 14-year-old accordion player, who will perform a work especially written for accordion by Pietro Di Mauro. The Concerto in A Major for accordion with orchestra will be performed by the artist who prefers the joys of Paris to her Bohemian duty.

The program for this concert includes as the main work the Seventh Symphony of Beethoven. Orchestra will also play Raymond Overture, Thaïs; L'Arlesienne Suite No. 1; Bizet: Prelude to Act 1 of La Traviata, Verdi: Falstaff, Tchaik: Swan Lake, Brahms: Double Bass Concerto, Tchaik: Eugene Onegin, and Ravel: Boléro.

Friday night the Commonwealths will present their annual concert at Masonic Temple on Wednesday, April 23. The program includes a variety of songs of 36 men under the leadership of Jack Williams, soloist and choir leader of Knox Church. Accompanying the soloists and choir artists will be Mrs. McLeand, soprano; Mrs. Fisk, contralto; Mrs. G. C. Smith, mezzo-soprano; Mrs. James, bass; and Joslyn Rogers, pianist.

Allergic Music and Dramatic Club directed by Mrs. Peter McGregor, chairman, presented its annual concert for a first child in such cases from \$10 to \$20, for a second from \$14 to \$16.

The hill would raise the pension from \$900 to \$1,000, for a married man with wife and two children from \$1,350 to \$1,750.

The hill would raise the pension from \$900 to \$1,000, for a married man with wife and two children from \$1,350 to \$1,750.

Vocal solo, duets, and trios were contributed by club members. The soloists were Mrs. Mary MacLean, Mrs. Robert Welsh, Jean McCrae, Mrs. Ethel McGowan, Mrs. Wilfrid MacCormack, Mrs. John MacLellan, Barbara Scott, Dorothy Ludwig, Mrs. Tilly Hyrenko, Mrs. Isobel Evans, Normie Darks and Elsie Gilt.

The violin selections heard were performed by Mrs. and Miss D'Amour and Mrs. Rosenthal. C Sharp Minor Prelude was featured as a piano duet.

Another concert on Monday evening, April 19, at Old People's Home on Whyte avenue.

Listening last Sunday to New York Philharmonic-Symphony Orchestra of a new symphony by the American composer Daniel Gregory Mason, we realized the expression of annoyance and even of disgust which have been heard and seen in print from people who say they just don't like this modern stuff.

It is a little a healthy reaction to take the trouble to express their views on modern music—even if the things they have to say about it are pretty nasty. At least their reactions are not things to ignore.

But perhaps those who consider the modernists as outright are approaching the subject from the wrong angle. In short, they expect

## Editors Are Told Winning Cold War

—(UPI)—"We are winning the cold war," Edwin D. Cashin, editor of the Christian Science Monitor told the American Society of Newspaper Editors Friday.

Cashin, just returned from Geneva, where he was an American delegate to the United Nations conference on freedom of information. He said the United States "is in a stronger position than it has been since the end of the war."

"Those who are communists and appear Communists are far in the background. The neutrals are in the middle ground. We are all pretty much on our side now. We are winning the cold war. An antibody is a protein molecule, which produces antibodies against things, except that each disease produces its own antibody that is useless to fight any other kind of disease."

The atomic discovery is that radioactive atoms can be hooked together to produce more natural defences against disease.

An antibody is a protein molecule, which produces antibodies against things, except that each disease produces its own antibody that is useless to fight any other kind of disease."

## TODAY'S MESSAGE

## Gratitude

In one of his famous fables, the 19th century Russian novelist, Ivan Turgenieff related how once upon a time God gave a party to all the virtues. They were brought together to have a ball in heaven, the greatest and small, the heroes and the noble. The virtues enjoyed themselves very much, most of them being well acquainted and some even closely related.

However, during the party God came across two virtues who did not seem to know each other and appeared somewhat ill at ease in each other's company. Accordingly, He approached one of the virtues and leading her to the other introduced them.

"Benevolence," He said, "this is Gratitude."

The two fair virtues, as Turgenieff's fable goes, were greatly astonished, for never in their lives had they met before.

The moral of the story is obvious. It should give thought especially to men and women who seldom if ever bother to think gratefully even of the God of Benevolence Himself.

Do such people really appreciate what God has done for them? Do they realize that their health, the little comforts and the comfortable incomes they enjoy, the friendship and love that give joy to their lives, are all gifts from God for which He merits their unceasing gratitude?

How does one show appreciation of God's bounty? It goes without saying that giving thanks will stimulate the little ones to go on doing church regularly to join in prayer and praise to God. Certainly they will offer an occasional prayer of gratitude during the day.

It is even more important that the recipient of God's kindness should be a channel through which His love may flow to others. The best way to say "thank you" to the Author of Good is to be of service. When gratitude passes from mere vocal appreciation to practical imitation of God's benevolence, it becomes truly perfect.

## Ilsley Is Opposed To Bill of Rights

### Opposes Constitutional Intrusion on Provinces

By John Leblanc

OTTAWA, April 17—(CP)—Justice Minister Ilsley cautioned Parliament Friday against trampling on the constitutional toes of the provinces with a national bill of rights.

He saved the "go slow" sign before Commons on the bill which would impose "restraints" on the provinces and the federal government to be careful about stirring up the issue of "provincial rights."

Ilsley spoke just before the house adopted a government resolution to establish a Senate-Committee of inquiry on the proposed bill and fundamental freedoms. The committee is to consider the way Canada can implement the United Nations' universal declaration on these liberties.

#### INCLUDES CCF MOTION

The resolution included a CCF amendment calling for a national bill of rights—empowering the committee to recommend a reference to the Senate to consider giving the government's authority to deal with the questions.

Earlier, a Progressive-Conservative amendment calling directly for an immediate court reference had been defeated.

The Progressive-Conservative amendment had been proposed by John Diefenbaker, PC member of parliament and chief advocate of a national bill of rights.

Ilsley said a bill of rights would improve only the work of the present parliament and would lay restraints on the provinces.

"We should be careful not to stir up the issue of provincial rights unless we are sure of our ground," he declared.

#### VEETS' LEGISLATION

At the eight session, Commons heard Veterans Minister Gregg announced wide changes in veterans' legislation and introduced three bills dealing with veterans' legislation through various stages.

A long-standing bill to increase the telephone rates of the Bell Telephone Company of Canada from \$150,000,000 to \$600,000,000 was tabled out of the Commons last Friday night in the hour devoted to private bills.

The house gave final reading to a bill to increase the Canadian National Railways' auditors—defeating a CCF attempt to have the work done by the auditor-general's department and similar firms instead of a bill to increase the CNR's grade-crossing fund from \$200,000 to \$500,000.

In such cases where there was a question of putting constraints on the government, Ilsley said, "I had a higher duty" than merely to find out how far it could go legally. It should be regard to tradition and other factors.

Of Diefenbaker's proposal for a "Civil Rights Commission" in the

## DRINK IN EYE STARTS PANIC

ATLANTA, April 17—(CP)—

A misdirected drink of water brought out every piece of fire-fighting equipment in town. Atlanta last night, and those were not everything but either at moment. Grab hospital.

Later investigation revealed that an amateur driver, bending over a diving fountain, got his drink in the eye instead of the mouth. He washed it out with a towel, but pulled a fire alarm box instead.

After suitable explanations, the patients went back to sleep.

## Life Imprisonment For Former Leader

SOFIA, Bulgaria, April 17—(AP)—

Dimitar Gichev, former deputy leader of the Agrarian party, was sentenced to life imprisonment Friday. The Agrarian leader, Nikolai Pelkov, was executed Sept. 22. Gichev was twice a cabinet minister in Bulgaria before the Second World War.

## SCOUTS TO GET NEW WINTER UNIFORMS

OTTAWA, April 17—(CP)—A new winter uniform for Canadian Scouts Friday was approved by the general council of the Boy Scouts Association.

Forest green color, it will include a smart ski cap, parka with fur-trimmed hood and slacks to be worn over the boy's regular trousers.

Designed as a utility garment, it has been the subject of months of research by experts in winter camping.

The uniform will be available for distribution this fall and until supplies are more plentiful will be issued only to scouts of first class rank or higher.

## Aquitania Will Bring Settlers

LIVERPOOL, April 17—(Reuters)—The Cunard White Star Line and the Canadian government have agreed to send about 1,500 settlers on each of 11 voyages from May 25 until the end of the year. According to the terms of the agreement, the first two trips already is fully booked.

The settlers, drawn from all over Britain, will come from all kinds—plasterers, shipyard workers, electricians, motor engineers, carpenters, coppersmiths, farm workers and civil engineers.

## No Export Permit Arms to Palestine

OTTAWA, April 17—(CP)—No export permits have been granted for the shipment of arms and ammunition from Canada to Palestine. Walter Harris, parliamentary assistant to External Affairs Minister St. Laurent, said no permit and munition could not be exported without a government permit.

He was replying to a question asked last week by Senator Jacques (S.C.—Wetaskiwin) who wanted to know if the government was willing to grant an export permit of funds which would be used to supply the Jews in Palestine with arms.

## Methodist Youth Leader Is Opposed to Draft Bill

WASHINGTON, April 17. — (AP) — An opponent of selective service in the United States Congress Friday believes military leaders are trying to build an army to fight "a hit-em-first war" with Russia.

H. D. Bollinger, representing the National Conference of Methodist青年, and two other church representatives told the house of representatives they want to postpone consideration of the bill until the United Nations to head off a world conflict.

As the committee began listening to arguments of those against a draft or universal military training, all senators said they would give careful consideration to the 70-group air force money bill.

Thursday the house approved \$100 million for the air force to go into effect April 1, 1949, by a 343 to 3 vote. The administration favors a 55-group air force, which it says will balance the armed forces.

The measure was sent to the Senate which must act on it.

**STUDY CRAFTS**

Both house and senate are studying an administration-endorsed draft-U.S. air bill. Demands for special action on a growing air force supported by Air Service, Sen. Silas Symington contrary to President Truman's wishes, have sidetracked

### ICE CYCLES IN PAGEANTRY

## Trips in Fantasy Take Visitors to Far Places

Imaginary trips to England, Scotland, Holland, and the Southland are thrills promised in "Ice Cycles of 1948."

The all-new national ice rink, presented by "Ice Cycles" and "Ice Follies" will open in Edmonton April 22.

Opening of the show is a "Pageant of Medieval Days," featuring Robin Lee, five times

U.S. figure skating champion and former Olympic skater.

"Poetry in Plastic" is in which settings and costumes are made entirely of plastic, is performed in a "Dior" stage setting. Under the spotlight in this number is Margaret Field, former Pacific Coast figure skating champion.

Lovely Jane Zeller, former mid-west

U.S. figure skating champion, takes the lead in "Oriental Fantasy," an eye-blinking strobe-light production sequence.

Dancing girls and silver blades provide entertainment in "Ice Ballet."

"Ice Cyclists," helmed as the most daring girls in an ice-ballet lineup, will be in the procession sequence "On the Bonnie Banks of Loch Lomond."

Today, Bollinger said:

"When high military authorities whose power would be increased by popular support, but if they do not like it, they will not let us buy goods from Britain."

"The setting up of a quota of seven and one-half million dollars for the British market will relieve the situation as far as Britain is concerned," he declared.

### HELP CANADIANS

"It has also been urged 'been to help the Canadians, especially Canadian farmers.'

"Each thousand dollars sent for British canola yields its equivalent value in wheat and other products," Mr. Malone reasoned.

"Every Canadian farmer is a farmer, so we are offering a market for the same dollar value of Canadian goods in Britain," he said.

Future for import of British canola, however, will depend when consideration is taken of the number of canola now coming to the west coast of Canada through the Panama canal."

The question of manufacturing Austin will be considered in Britain when the economy and certain conditions improve, said Mr. Malone.

One more particular concern to Canadians in the immediate future is the car itself.

Silhoutte of the car itself has been overcome by the elimination

of running-boards, making the body width of the car. Three can sit in the car.

**TYPICAL BRITISH**

Typical British features such as the sliding roof-top and automatic signalling arms have been incorporated.

Notable advantage of the little car is found in its "speedy" performance, which is a good between the normal intermediate and high for quick take-offs in traffic.

The car, said Mr. Malone, averages 40 per cent of the operating maintenance cost of the ordinary American car makes 50 miles to the gallon.

"What is the use?" asked Mr. Malone. "Of having a car which will not go 25 miles to the gallon if you can only legally do 25 miles to the gallon and 50 in the country?"

He emphasized the fact that Austin dealerships and garages have been established throughout the U.S. and Canada.

"As a matter of fact," he commented, "1,200 Austins were delivered in the United States during February."

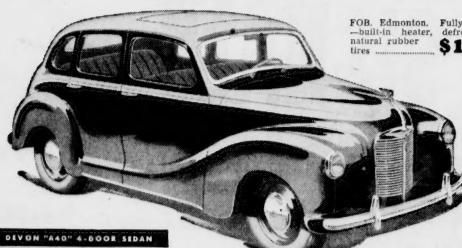

Perhaps it is auspicious that the cars come to Canada in crates packed, "British delivers the goods."

Carrie—All I want is a dollar!

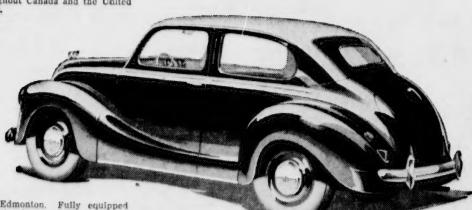

Kelly—Oh, if that's all you want I wouldn't trust you—you lack ambition.

## England Making Bid on Car Mart

### New Austin Automobiles Entering Country Freely

England's bid for postwar recovery in the auto industry made its bow in Edmonton today. The public had been led to expect the arrival, but 15 new and Austin "40's" were unloaded in city railroad yards today. A preview was supplied to the choice few in Edmonton.

Austin dealer R. P. "Pat" Malone said today, "the lifting of the embargo on British cars was a logical thing for the British government to do."

"Britain could," he said, "have continued buying Canadian wheat and flour, but the British government refused to buy goods from Britain."

"The setting up of a quota of seven and one-half million dollars for the British market will relieve the situation as far as Britain is concerned," he declared.

# Vital Italy Vote Begins Sunday

Western World, Europe Await Outcome of Important Election

By Frank O'Brien and John P. McKnight

ROME, April 16.—(AP)—The tumult and the shouting of the campaign die tomorrow, and Sunday morning begins Italy's most important post-war election.

Some 29,000,000 Italians are

old enough to vote and 10,000 have registered to do so.

Lombardy's wealthy industrialists and Sicily's landed gentry,

Milan's bankers and sailors and Apulian bronzed fishermen,

prosperous small farmers, barefooted peasants, sailors, cloistered

Monks, all are voting.

In pre-election travel over much of this ancient land and the Caesars' green and lovely in the spring, these representatives had been submerged in the tidal wave of international opinion.

**MOVING REASON**

Of them all north and south,

this question was asked:

"What will make a man (or a woman) vote this way or that in your region?"

With few exceptions, most of them in the south, they replied—and many said it sadly, or bitterly—that it was the state, the outcome which Italian voters noted.

That question, pressing though they were, had been submerged in the tidal wave of international opinion.

Here are the major conclusions reached by these correspondents, comparing notes:

One of thousands who three months ago were fence-sitters or Leftists-inclined will vote

Communist, if he can't deny the Communists' popularity from an absolute majority, in the hope of getting enough, possibly, to make Premier Alcide De Gasperi's Christian Democracy the biggest single party or bloc.

(Footnote by O'Brien: A northern editor said, "The workers know how they must vote."

## Racing Strip Sea of Mud But Horsemen Hard at It

The racing strip at the Exhibition grounds was a sea of mud and mud Friday. But this didn't stop the horsemen from getting in their training tricks.

Thoroughbreds came and went until well on into the afternoon as Jack Heipel, Jim Charlesworth, and more conditioners tried to make up for the set backs suffered recently in the mud.

"Well be working them in four or five days if the track dries out," said Heipel. "Right now galloping and running more — is the order of things."

Services of Jay Cowan, rated as one of the best exercise boy in the west are being given by the well known Jimmy Schimmy, who rode 12 winners on the prairie circuit last season. Cowan has had a hard experienced saddleman, he is here for the galloping chore.

**CLASSY STOCK**  
Around the barns it's pretty

repeated that the 55 or so horses that wintered in Edmonton got along fine since even the coldest blizzards during the off season.

Spangled Belle is an interesting newcomer. The 3-year-old filly for \$3,500. Lee Williams took her from J. F. Seagram only to sell her to Jim Charlesworth and then to J. A. (Jim) Charlesworth.

The Charlesworth standard bearer is expected to move than hold his own in the mud. He is in training for the big May 25 racing meeting in Calgary, starting May 22. She is training in fine form.

Also stabled here for the first time are such as Air Cadet, Blankaway, Lady AA, Stateford, Ruby and many more from the far east elsewhere than on the prairie near the limit of the 1947 season and headed to Edmonton.

Of course, the bulk of the winter colony comprises out destroyers who have been last year and every body expects to ride out the storm.

In little groups of four weeks

of course, the horses are sent to

Calgary. There's plenty to be

done in the meantime.

## LONGDEN BUMPS INTO RUN OF TOUGH LUCK

SAN MATEO, Calif., April 17. — (AP) — This just hasn't been jockey Johnny Longden's week.

The veteran rider, formerly from Taber Alta, to whom the winless day isn't too new, has gone 13 straight races at Bay Meadows without a victory. In 10 of those 13 races — scattered over three days — the crowd made his mount the betting favorite. He needs only nine winners to total 3,000 — and the crowd wants to be with him when he gets that figure.

Johnny's unluckiest day was Wednesday. He lost two races by a nose each, another by a length, and was third, only a half-length behind the winner, on the other.

In all 13, he totalled four seconds, four thirds and five also-rans — including ninth on one part-mature choice.

## Foresee Battle Royal For Cricket Supremacy

LONDON, April 17. — (CP) — Don Bradman and his Australian cricket team will be the world's most popular "Ashes" symbolic of world supremacy in the sport. But even before the steamship Strathaird docked with the team, British papers — tongue somewhat in cheek — were building up this summer's test series as a battle royal.

**WATERS AT THIBAUT REPORT**

A short inland stretch of the coast loaded with shipping, Australian weapons, and naval stores, a scoring machine which wrought terrible havoc in an assault on the province will be held shortly by the forces for most of his colleagues.

A few writers mildly expressed hope that the British would be beaten, Australian weapons, and naval stores, a scoring machine which wrought terrible havoc in an assault on the province will be held shortly by the forces for most of his colleagues.

As a result of the beautiful Leoland-Royal George trophy presented for competition between the Canadian and local amateur hotel proprietors.

Both the handball stars turned back the Calgarians last year.

Among those expected to represent Edmonton in the 1948 test are Dr. Hal Richard and George Docherty.

## FULTON GIVES WITH 'SEEGEARS' A BOY, TOO

Calgary's University of Alberta's Golden Bears intercollegiate grid champs of the past year are passing out the green Friday.

**NO PROBLEM AT ALL**

Bradman told reporters at a press conference: "As far as we know, there is no problem at all. We play cricket under the jurisdiction of the umpires, not the referee, although it is not customary to have an old man stand behind the wicket keeping score.

It is the same all day long. It's the same all day long.

However there has been no peace between the two sides since the all star last year and every body expects to ride out the storm.

In little groups of four weeks

of course, the horses are sent to

Calgary. There's plenty to be

done in the meantime.

**RAP DEER HUNTING**

**AT LA ROBIN HOOD**

HALIFAX, April 17. — (CP) — A delegation from the Society for the Prevention of Cruelty to Animals will protest legislation to encourage deer hunting with bow and arrow in Nova Scotia. It will meet the law amendments committee of the Nova Scotia legislature on Tuesday.

Under the proposed change a special license for bow and arrow hunters would be issued non-residents for \$5. Present charge is \$25, which covers all forms of hunting.

A society spokesman said "The way the Indians killed deer before the white man came is inhumane."

## Ike Williams Sued For \$40,000

LOS ANGELES, April 17. — A suit for \$40,000 damages was filed yesterday against Ike Williams of Trenton, N.J., was sued for \$40,000 breach of contract by the California baseball club, the Los Angeles Angels.

Williams, 32, signed with the Angels in 1946 and is a member of the team.

The instability of the Dodger team indicates an uncertainty in the mind of the Brooklyn brain trust. If the team is to be sold, such as Arky Vaughan is a starting outfielder, it indicates he is to be traded. One thing the Dodgers have is reserves, Branch Rickey's team always have those kids who can fill in when you can't get a team off a team like that.

Cincinnati Reds, who finished last year with 100 wins and an average of 26.5, are the Reds appear to be picking up the great Ewell Blackwell in the top spot.

Los Angeles claims Williams broke an agreement to meet John Thomas, Los Angeles, here in May, 1947, in a title match.

## Your Radio Review

By Don Flash

Talking about big money—apparently there's a lot of it in your loudspeaker.

According to a recent estimate by a broadcasters' association in the United States, \$5,000,000 was given away by commercial stations during quiz programs during 1947.

One program alone is said to have given away \$500,000 while another gave away \$300,000.

To such an extent has the matter of the give-away come to take the spotlight of the show that entertainment value has been practically nil.

A man responded to a project of such shows recently in one instance that the announcer has barely time to say, "What's your name? Here's a new furnace, a diamond-studded coffee pot, a fur bathrobe, and thank-you."

Commercial companies furnish one of the freest expressions of opinion on the air in Canada today.

Their names now, however, is said, that the original sponsor of the program is lost, and no one can tell who or what is being advertised.

Things have yet to come to such pass in Canadian radio, the critics are not so big and the advertising is not yet so prominent a part of the week.

But we still often wonder whether plugging the sponsor is incidental to the program or the program is incidental to the plug of the sponsor.

A few new ideas as well as a few more old ones, however, wouldn't do any harm so far as listener interest is concerned.

For many years past, many of the shows that have been on the air for a lengthy period have become worn out and monotonous. These too, however, can be easily avoided if the questions asked are so simple they do not merit the attention of the listener.

A program that promises some good listening is scheduled Friday nights over CFRN at 9:30. Titled "The World's Great Novels," the program is being produced by National Broadcast Company and should include capable acting.

A play by Stephen Vincent Benét, "Dale Mellohill and the Peony Gates," will be the first in Buckinham Theatre next Wednesday over CFRN at 8 p.m.

Another program writer, Sidene Howard, will have his play, "The Silver Cord," performed on Ford Theatre this Sunday at 3 p.m.

In addition to hockey, Edmonton's three radio stations will this coming weekend be broadcasting portions of the fifth edition of the Public School Festival. Times for the broadcasts are varied through the week.

Singing Stars of Tomorrow come to town this Sunday, April 23, grand finale of their program instead of the usual half hour. Winning participants of the three previous contests will be announced on the program.

A very good motion picture and novel has been adapted for radio and will be heard on Lux Theatre this coming weekend night, 7 p.m., featuring the stars Ronald Colman and Greer Garson in the lead roles.

A CKA feature returning to the airwaves after the summer vacation season, "Candy Spring," begins two to five Saturday afternoons just as most motorists are heading for the weekend resort. East-to-listen to music, news, weather and pertinent motoring information.

Edmonton's Philharmonic Orchestra will be heard on the air via CKUA this Sunday at 9:30 in its last concert of the season. One of Edmonton's most popular young soloists, Syra Quattrochi will be featured on the program in a concert with orchestra and piano and orchestral accompaniment. A. E. Franklin is conductor of the orchestra.

The cast for private enterprise will be advanced on Town Meeting in Canada over CFRN Sunday 100 at 8:00. This program is marked by

## CCF Reaffirms "Reds", LPP Out

### No Collaboration Says National Council Statement

Ottawa, April 17.—(CP)—The CCF National Council Friday reaffirmed the party's determination not to be associated with any party which may be aligned with progressive parties.

In disclosing its policy, the CCF National Council, which opened a four-day session here, said it had continually maintained its stand that it or any other party, whether progressive or otherwise, provincial or constituency basis.

The session provided over by National Chairman F. H. Scott of Montreal are reported as considering plans for CCF representation at the forthcoming International

A valuable effort in the current shortage current in rural Alberta was the fence exchange put on by the CAAW, with the date at 12:15 over CFRN. Writer of the show Louise Oliver reports the service was much appreciated by many farmers, faced with the prospect of a starving cattle.

## Guide to Home Builders

### THE PERRY

Homes of Moderate Cost

Plan 1—  
15,500 Cubic Feet.

Plan 2—  
17,880 Cubic Feet

In this attractive Cape Cod home nothing has been overlooked that might enhance the flavor of Canadian precedent. Within, the design fulfills a promise of comfortable and convenient arrangement with large and well lighted rooms.

The Edmonton Bulletin's new, modern house booklet "Homes of Moderate Cost" is available by mail, postage paid \$1.00 each—or at the Bulletin office.

## Canada Not Yet Out Of Financial "Woods"

By Douglas How

OTTAWA, April 17.—(CP)—Government financial authorities are soft pedaling any tendency to gloat over the progress of the five-month-old Canadian program for the conservation of United States dollars.

A recent editorial in the New York Herald Tribune, for instance, concluded: "The Canadian dollar has turned the corner" economically and caused me a curious reaction in official circles.

Finance Minister Abbott admitted: "We're on our way up all right, but we're not out of the woods yet." The church bell rang the news.

The bishop is the Right Rev.

David Colin Dunlop, 51. He told the Edmonton Rotary Club he had been forced to give up his bell-ringing, because when he grabbed the rope to help local ringers he found himself swinging to and fro in the belfry.

**LATEST ON REVENGE**

"There are no new facts as yet. All indications are that the business of dropping an atomic pellet into the coal bin to do the work of many rakes and shovels will hit us tomorrow or the next day. Coal, oil and gas are still the predominant favorites—and so is hot water, steam and radiant floor

## New Air Condition Plans Answer to Summer Heat

By Bert Nightingale

Picture it if you can (Edmonton's 1948 spring being what it is) a hot midsummer afternoon, the kind of day when windows are closed from top to bottom.

Into this picture project a modern home, its interior so cool and refreshing as to be almost unbelievable.

Miraculous as such a situation might appear to Albertans who are sun-baked at least four months of the year, it is quite within the bounds of possibility.

After a matter of fact, it embodies a system of heating and air-conditioning which is now several years old—south of the border.

Several Eastern companies specialize in problems of heat and cooling in modern homes. Each has its own particular method of introducing heat and removing it. The heart of the system is the furnace, passed through filters which take out dirt and dust. There is a constant circulation of warm air through the house as long as the furnace runs.

This system can be equipped with a humidifier to introduce moisture in controlled amounts into the heated air to make dry winter air. This is a form of air conditioning.

### COAL FURNACE

In its simplest form, the central unit is a coal furnace, fired by a gas burner. The heat is distributed through pipes to the various rooms. The system sometimes has automatic burner and draft control, but little else.

It is possible, however, to have automatic heat with any type of fuel. With the use of mechanical stokers for coal firing, thermostatic control is just as effective as with gas.

Some know as bin feed stokers take coal or coke directly from the bin and drop it into the furnace. Such a unit must be cleaned frequently, but it is a good idea.

Gas is provided by forced warm air in more or less conventional fashion. In summer, however, the system is reversed, the fan, after an atomic coil, cooled and dehumidified before being discharged into the rooms.

The cost of such equipment is still high, although, according to heating experts, not excessive. Operating costs are described as reasonable.

### BIBLIOGRAPHY

Great developments are being made in the field of heating and air conditioning generally, as air raid Northern Alberta is getting the advantage of proven new ideas. Some know as bin feed stokers take coal or coke directly from the bin and drop it into the furnace. Such a unit must be cleaned frequently, but it is a good idea.

### CHURCH BELLS

#### RING BISHOP

SUNDERLAND, Northumberland, England, April 17.—(AP)—The church bell rang the news here—was he surprised?

The bishop is the Right Rev. David Colin Dunlop, 51. He told the Sunderland Rotary Club he had been forced to give up his bell-ringing, because when he grabbed the rope to help local ringers he found himself swinging to and fro in the belfry.

**ST. JOHN AMBULANCE ASSOCIATION**

\$600,000 Objective

OTTAWA, April 17.—(CP)—The St. John Ambulance Association has set an objective of \$600,000 for a Dominion-wide campaign to be held during the first three months in November.

No money has been raised so far.

C. A. Gray, sub prior, said yesterday at a meeting of the Ottawa branch:

"It was announced that the

Department of National Health and Welfare has given \$100,000 to the campaign.

The government's program, now in full swing, linked imposed restrictions, income tax and limits on imports. Canadian tourists could take across the border.

#### CUTS RECEIVED

The latest figures indicate that it slashed the negative balance of trade with the U.S. by \$300,000 in the first three months of 1948, entirely because of enlarged exports. Imports from the U.S. in January and February, 1948, were \$850,000,000, while exports were \$525,000 last year. March is also believed to have shown an increase.

The new export figures were \$300,000,000 compared to \$400,000,000.

Meanwhile, the financial position of Canada in the world trade has in a period of transformation from her own \$2,000,000,000 post-war program of loans, grants and credits to the Era that will shortly succeed it.

It was the dollar shortage that

ground her own program to a halt after 85 per cent of it had been spent or committed.

## SPRING PLOWING

THE respectable mouse was a good plow mouse. All the Teenie Weenies agreed to that, but it had one bad habit. It was forgetful and occasionally it allowed its tail to get plowed in and that usually ended in a runaway. Several Teenie Weenie plows had been wrecked in this way, so the Teenie Weenies decided to add a tail-bearer to the regular plow crew. It took three Teenie Weenie men to do the plowing. The Cowboy usually guided the plow, another Teenie Weenie led the mouse and a third walked beside the plow and held the mouse's long tail to keep it from being injured. The Teenie Weenies had contrived a sort of clip which fastened to the end of the plow and held the mouse's tail safely, but this made the mouse nervous and it had to be given up for mice are very suspicious of mechanical contraptions.

The job of tail-bearer was not popular with the Teenie Weenies and there were few volunteers for the task. In order to supply men for this honest but rather undignified work, the General usually had to appoint them. When he informed the Dunce that he was to do the honors one day the little chap objected with all his might.

"Jimminy Christmas!" exploded the Dunce. "I had planned to go fishing today."

"That's too bad, Dunce," answered the General, "but we must get the ground plowed if we hope to have a garden this Summer. You can go fishing when the plowing is done."

"But the fish are biting NOW!" argued the

Dunce. "You have to take fish when you can get them. You just can't go any time."

"That's exactly why we are plowing today. You can't just plow any time," said the General.

The Dunce was terribly disappointed and it was plain to all the Teenie Weenies that he was very angry. He set about the task with a grumpy expression and the crew had plowed only a couple of furrows on the south side of an old broken jug when the mouse began to act strangely. It looked back a

great deal and pulled sideways, which made very uneven plowing. Finally, the Cowboy decided to shift his crew. He asked Gogo, who was leading the mouse, to be tail-bearer and he sent the Dunce forward to lead the animal.

There was no more trouble and the work went along smoothly. The Cowboy never mentioned the matter, but he had a strong suspicion that the Dunce, in his nasty frame of mind, had been pinching the mouse's tail.
